Skills

Languages: C, Java, Python, JavaScript, SQL

Technologies & Tools: ReactJS, HTML, CSS, JavaScript, Firebase (Auth, Database, Hosting), Supabase (SQL), MySQL, Git, GitHub, Vercel, VS Code, CodeBlocks, Kali Linux, MS Office.

SUMMARY

As an Information Science and Engineering student, I'm passionate about AI, Data Analytics, and problem-solving. I aim to apply theoretical knowledge to real-world challenges, build intelligent systems, and develop innovative solutions. I'm committed to staying updated with emerging technologies and delivering high-quality solutions that benefit industry and society.

Education

Mangalore Institute of Technology and Engineering, Moodabidri (VTU) Bachelors of Engineering in Information Science and Engineering	2023 - Present CGPA: 8.36/10
Sri Durgaparameshwari Temple Pre University College, Mandarthi (KSEEB) Senior Secondary (12th)	2022-2023 Percentage: 81.28%
Karnataka Public School, Kokkarne (KSEEB) Secondary School (10th)	2020-2021 Percentage: 85.16%
Relevant Coursework: Object Oriented Programming, Databases, Discrete Maths, Data Structures and Algorithms, Operating Systems, Embedded system and design, Computer Networks, Machine Learning, Full-stack Development, Image Processing, Open source and Technologies	

Project Work

- **Eco-Ride Bin (2024):** Developed a patent-applied project for waste management in buses with a real-time alert system for bus management and sanitation workers. Technologies: Android, Firebase, Sensors
- **AI Diary Fullstack Website (2025):** Built a full-stack website allowing users to record daily routines via text/voice, auto-save by date, and secure login using Google authentication. Technologies: ReactJS, Firebase (Auth, Database, Hosting)
- **Magnetic Separation Model (2023):** Designed a miniature model with motors and mechanical components to separate magnetic materials; exhibited at college under faculty guidance. Technologies: Motors, Mechanical Components
- **Deep-Sleep & Ticket Tracker (2025):** Developed two apps (user and conductor) for bus ticketing with QR codes and notifications. Includes a research paper; the app alerts conductors if passengers fail to confirm before their destination. accepted in Springer Conference at RVITM (yet to present). Technologies: Android, Firebase, QR Code, Google Maps API
- **URL Access Path Algorithm (2025):** Authored a paper on generating unique file names for student images to address security gaps in college websites. Selected for IEEE INSPIRE Conference (yet to present). Technologies: Algorithm Design, Security
- **Dynamic Captions (2025):** Wrote a paper on generating inverted-color captions with borders depending on video background; accepted in Springer Conference at RVITM (yet to present). Technologies: Video Processing, Algorithm Design

- **Ethics in AI (2025):** Published a paper on identifying incorrect datasets and predicting accurate datasets using mathematical notations; accepted and presented at IEEE Conference, Acharya Institute of Technology and Engineering. Technologies: AI, Machine Learning, Mathematical Modeling
- **Lab-Colab Website (2025):** Created a full-stack platform where students can share text/files in the lab; all logged-in users can view and download the files. Technologies: ReactJS, Firebase, Supabase
- **ROUK Personal Assistant (2024):** Developed a Python-based virtual assistant capable of opening/closing apps, speaking, and automating tasks like writing leave letters. Technologies: Python, Speech Synthesis
- **Smart phone Back-cover (2024):** Built an Arduino project detecting proximity between mobile and user; triggers buzzer and light alerts when the phone is too close. Technologies: Arduino, Ultrasonic Sensors, LEDs

Awards and Certificates

- **Infosys Certificate:** Completed courses in Machine Learning, C, Python, R Programming, Statistics, Frontend development and Java.
- **IEEE Paper Presentation Certificate, Acharya Institute of Technology:** Presented research papers at IEEE conferences.
- **Technology Job Simulation, Deloitte (Sept 2025):** Completed practical tasks in coding and development.
- **Honorable Mention, PTC Competition:** Ranked in Top 5 teams globally for designing an energy-efficient place.
- **Arduino Workshop:** MITE (May 2025)
- **Springer Paper Presentation Certificate, RV Institute of Technology and Management :** Presented two research papers at Springer conferences.
- **Smart India Hackathon:** Participated in a national-level hackathon focused on innovative problem-solving and technology development.
